2. Discussions in the Personnel Subcommittee of the joint CRS/OJCS Merger Group surfaced another requirement for computer operators in DDO/ISD numbering three in July and four in the October-January time frame. Although the availability date of surplus CRS operators does not coincide exactly with the ISD requirement dates, the committee recognized the desirability of an accommodation. Subsequent discussions led to an agreement between representatives of CRS, OJCS and ISD to meet the latter's requirement for computer operators. The agreement is to:

a. Transfer three additional CRS computer operators to OJCS, double encumber these operators against OJCS positions and detail them to DIS/O until such time as the latter can absorb them in its own T/O. The operators are:
